

The Aalto University is committed to enhancing the student learning experience. It is with this purpose in mind that the Aalto University enables the recording of lectures and seminars.

Please be aware that the lecture you are attending may be recorded in audio or video format. If the lecture is not recorded this is because either the lecturer does not wish the lecture to be recorded, or it has been agreed that the material is not suitable for recording.

Please let your lecturer know if you do not wish to be recorded, and he or she will make alternative arrangements to enable you to contribute to any discussions and/or ask questions without being recorded.
