Abstract

"During the first meeting of the new INSEA world council in Daegu in 2017, it was suggested (and accepted as an action plan) that INSEA world council should collaboratively create a succinct and strong Manifesto, designed to support world wide common strategies for advocating for visual art education in schools and alternative learning provisions. We propose a roundtable in June 2018, which will be facilitated by the three European Council members, (Susan, Gabriella, and Joaquin), to share and discuss the Manifesto and to agree on strategies for sharing it globally and for making it accessible to a diverse range of audiences around the world.
