Tin cans and steel food cans
Aluminium foil
Metal bottle caps and lids
Metal pieces: iron, steel, aluminium
Other metal waste

Not these!

Electronic waste
Batteries and accumulators
Spray cans
Fluorescent lamps
Light bulbs and halogen lamps

Lassila & Tikanoja Oy collects metal waste produced at real estate owned by Aalto University Campus and Real Estate (ACRE).

The glass waste is transported to a recycling plant in Kerava, where it is used as raw material. Nowadays, up to 50% of the metal used for new cars is recycled!
