

Safewin.org

Safety of winter navigation in dynamic ice

The SAFEWIN consortium cordially invites you to the
final seminar of SAFEWIN project

on Thursday, 13th and Friday 14th of June in Espoo, Finland.

The seminar will present project findings and discuss their implementation. It is organized by AALTO UNIVERSITY as a part of SAFEWIN project and is **free of charge**.

The seminar provides an excellent opportunity to influence ongoing efforts to implement the latest ideas in ice compression descriptions and forecasting, thereby improving and better safeguarding transportation in ice-infested waters.

If you are interested in influencing the future developments within this field, then use this chance to make your views heard. Take the opportunity to participate and update yourself on the latest developments and possibilities and give your views on the subject during this seminar.

Safety of winter navigation in dynamic ice

Agenda

Thursday

19:00 - Welcome reception

Friday

09:00 - Opening Prof. Pentti Kujala, Aalto University, Finland

09:15 - Hands-on operations of ships in ice

09:45 - Observations campaigns

10:15 - Compression in ship scale

10:45 - Coffee break

11:15 - Ice compression forecasting methods

11:45 - Operative forecasting of ice compression and field validation

12:15 - Risk model for ice navigation

12:45 - Lunch break

14:00 – 15:00 - Future trends in the ice compression research and discussion

SAFEWIN is an EU-funded research project, planned for the period from September 2009 to August 2013.

The project aims to develop an efficient ice compression and ice dynamics forecasting system – which is precisely aimed in increasing the safety of winter navigation in dynamic ice conditions.

The project consortium gathers partners from the academia, governmental administrations and private shipping companies from Finland, Sweden, Estonia, Russia and Croatia.

Registration to SAFEWIN final seminar

Please use the on-line registration form that can be found [HERE](#), or send an e-mail to Jakub Montewka, by May 17th- jakub.montewka(at)aalto(dot)fi or register by phone +358 505 916740

Please include your **name, title, organization, address and phone number.**

Venue

Aalto University campus in Espoo – Otaniemi.

Accommodation

- Radisson Blue Otaranta 2, 02150 Espoo - located just 10-minute walk to seminar venue.
- Sokos Hotel Tapiola Garden; Tapioplatzen 3, 02100 Espoo - 30-minute walk or 5 minute taxi drive from the seminar venue.
