

MyCourses feature update list

Major known issues, still waiting to be fixed

- Calendar - Several issues sent to us (incl. exporting problems, lecture names does not come with export file,) we're looking into them.

Major features and changes since the launch in 1.8.2015 - newest first

2015-12

- Starting from 2.12.2015 teachers can open a forum for guest access (openly on the internet) too.
- Questionnaire plug-in installed (quiz and feedback)

2015-11

- Instructions corrected: "The course calendar contains room and time information on lectures -and exercises ~~and exams~~-automatically driven from Oodi."
- MyCourses Theme updated
- minor changes to the language files based on user feedback

2015-09-10

- Following courses without being a member in a course is not possible, teacher can allow all Aalto/haka authenticated users to see course news.
- A new restriction method based on organisation (user domain), currently only [aalto.fi](#) domain is supported. Previously we had an email-based [@aalto.fi](#)-restriction
- When using grading rubrics, teachers can export grade criteria items individually into an Excel-file, so to compare student performance on each criteria
- Several text changes to language packages
- MyCourses feedback discussion forum (link in MyCourses service links- menu) was opened.
- Quiz-activity texts and link has been clarified
- Turnitin submission box shows only course members
- Open University students will have e-mail address field filled in their profiles after they have logged in. They should now receive messages from MyCourses similarly to other workspace members.
- Course name displayed in the same language which is set in Oodi
- Manually hidden course workspaces remain hidden during the overnightly integration runs from Oodi.
- Guest access-restriction no longer removed during the overnightly integration runs from Oodi.
