

Online video meeting with Zoom

Zoom - online video meeting tool integrated in MyCourses course workspace

- for online sessions with students
- for student presentations
- for one-to-one student guidance (eg thesis guidance)
- for weekly contact times
- for Questions and answers sessions
- for remote teaching

In zoom session, you can use voice (also phone) and video, chat and polls. Sessions can be recorded.

The teacher can create rooms for simultaneous online working for small groups (breakup rooms).

- session time shows up in MyCourses calendar. Sessions can be created beforehand.
- course students have automatic access to Zoom session with no extra logging
- also grading of the session is possible. Set grading in settings, and a column in Grader report is created.
- Note! as a default, Zoom session is open for everybody with the URL link. To prevent outsiders from your session, you can set a password to your session.
- session can be recorded. You'll find the MP4-file in your computer after the session. Upload the file in Panopto and share to you students with a link.
