

Turnitin for Students

What is Turnitin? (Turnitin description in Into, [even på svenska](#))

1. Submitting a file into Turnitin activity in MyCourses

a) Course assignments

- [How to submit in Turnitin submission inbox and view the similarity report in MyCourses](#)
- [Peer review assignment](#) next to your own submission

b) Thesis drafts

- Bachelor's thesis: see if you can submit draft versions in a Turnitin activity in your bachelor's thesis seminar. If not, see the point b).
- Master's or doctoral thesis (or bachelor's thesis):
 - check whether your advisor or supervisor has got a personal MyCourses workspace for thesis supervision in [mycourses.aalto.fi](#): write your supervisor's or advisor's (sur)name in the "Search courses" (=magnifying glass icon) field. If the search lists a workspace beginning with "Thesis supervision..." and ending with your supervisor's or advisor's name, follow the instructions in the workspace in order to submit your thesis in a Turnitin activity. If this kind of workspace is not listed, [you can suggest your supervisor to get one](#). If it did not work, see the point c).

c) For independent Turnitin usage

- Note that no support for interpreting a Turnitin report or assessing is available in this workspace: [Independent Turnitin Originality Check](#).

2. Handling a similarity report

- [How is a similarity report viewed in Feedback Studio?](#)
- [What happens if plagiarism is suspected?](#)

3. Viewing teacher's feedback and grading

- [View feedback in Feedback Studio](#)

4. What is expected of you when using Turnitin

- [How to aim at skilful writing and avoid plagiarism](#)
- [Your rights and responsibilities](#)
