

Update course syllabus

NOTICE: The teacher needs to open and save the course syllabus page before the information is shown.

The course syllabus is a structured page in the MyCourses workspace where the teacher can give additional information about a course before it starts.

MyCourses users can find syllabus information in the upper right corner of a workspace. To edit the syllabus, click the *Edit* button and fill in the form. The info is automatically updated in Oodi course info.

1. To edit the syllabus, Click *Edit* button (see image above).

If you can not see the Edit button make sure that:

- a. You are logged in
 - b. You have a Teacher role in the course space
 - c. The course space was created based on Oodi information.
2. Fill in the form and update the syllabus. The course syllabus will be visible on the course page to all users and it can be viewed in MyCourses search results.

Instructions for writing
