

Teacher gives feedback in Feedback Studio

Overview of Feedback studio (click the picture to maximise it):

The screenshot shows the Turnitin Feedback Studio interface for a document titled "Diana Demo". The document content is a text document for a Turnitin demo, discussing authentic learning and blended learning. The interface includes a top navigation bar with "2.5. Grade" and "9. Move to a previous or a next submission" buttons, and "10. Instructions (Turnitin.com)". A left sidebar shows "7. Jump between pages". A right sidebar contains various tool icons and a list of settings: "1. Layers (show whether they are active or hidden)", "2. Show/Hide instructor feedback layer" (with sub-points for QuickMarks, Feedback summary, and Rubric/Form), "3. Show/Hide similarity layer" (with sub-points for Match overview, All sources, Filters and settings, and Excluded sources), and "4. Download (current view as pdf / digital receipt of submission / originally submitted file)" (with sub-point for Submission information). A red circle highlights a comment icon in the document, with annotation "2.4. Insert a QuickMark comment/ Comment/ text comment on view on the spot you click". At the bottom, "6. Page number of the page in view & word count of the whole paper" and "5. Zooming a submission" are noted.
