

# Aalto Wiki will be updated, read here about the changes

[AaltoWiki will be updated from the current software version to the newest version in the near future.](#)

AaltoWiki uses collaborative software [Confluence](#) by [Atlassian](#). There are some major changes in the new version of Confluence, if you want to skip reading and go straight to the point, watch the video clips that sum up the major differences between the old version of Confluence and the newest one.

Instructions for using the new wiki version are [here](#).

You can find a lot of information about Confluence 5 from [here](#).

Some of the changes are shown below :
